IMPROVED WORKING CONDITIONS

Placing the CPU underneath the work station improves user comfort by reducing heat, fan noise and providing more space on the work surface.

+ SPACE

Valuable work surface is regained for the user allowing better organisation of the work area.

CPU SUPPORTS WITH STRAPS

The solution for flexibility. Efficiently uses space under the work surface. Allows CPU to slide in and out, swivels completely to allow cable access.

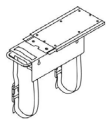

A SUPPORT FOR EVERY NEED

Rigid Universal: the solution for stability. Profile: the CPU is protected from theft and accidental damage. Mobile: can be positioned according to user preferences, adapts to most CPUs.

SURFACE MATERIALS

- Aluminium (Profile only)
- Silver
- White (For Rigid only)

SUSTAINABILITY

Sustainability actions and results are annually communicated in the annual Steelcase Corporate Sustainability report.

*180/0 with sliding/rotating mechanism or brackets.

Restrictions: Profile CPU support large and small should not be used on electrical height adjustable desks.
